A VIBRANT PERIOD OF LEARNING AND CELEBRATION

The past few months have been full of activity, creativity, and global connection in our International Section. Our students have been enthusiastically participating in a series of special projects and events, bringing our school's values to life.

We began by celebrating **International Day of Peace**. CP and CE1 were buzzing with meaningful discussions and artistic expression as students created beautiful posters, learned songs about harmony, and engaged in thoughtful debates about what peace means to them.

The learning continued with **International Sign Language Day**, where our students in CMI embraced a new form of communication. They worked hard to learn and perform a song using sign language, a powerful and moving experience that highlighted the importance of inclusion and understanding.

For **World Tourism Day**, we embarked on a virtual journey around the world! CE2 Students shared their favorite vacation memories through colorful drawings and descriptive writing.

The spirit of collaboration was shining brightly when our **CP students visited the CM2 classes**. They proudly presented their own songs and posters about peace and love, fostering a wonderful cross-grade connection and sharing their important messages.

Finally, our **CMI students** had their moment in the spotlight during a school assembly, where they joyfully performed the classic song "It's a Small World." They also created their own vibrant posters, reminding everyone of the beauty of our connected global community.

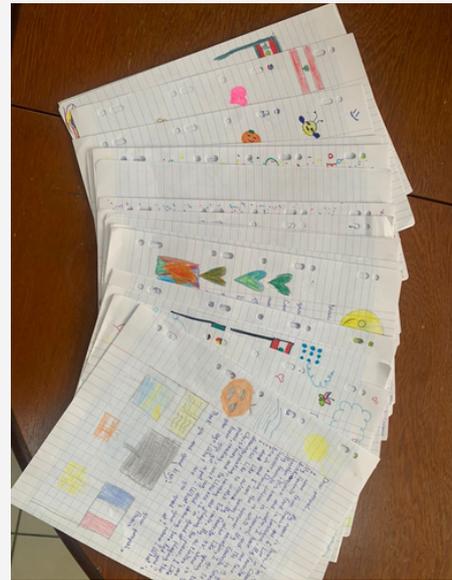

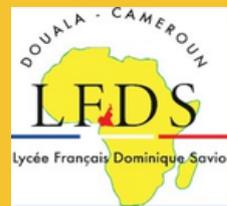

SEP – OCT

SPOOKY CREATIVITY AND GLOBAL FRIENDSHIPS!

The energy continues as we move into the new season! Our hallways are now filled with **spooky Halloween arts and crafts** and wonderfully creative poems, getting everyone into the festive spirit.

We are also thrilled to announce the launch of an important and exciting new project: **A Pen Pal Correspondence Program between our CMI classes and students at ASD School!** This initiative will allow our students to practice their language skills, learn about different cultures firsthand, and build meaningful friendships. This written exchange is just the beginning, as we plan to follow it with **field trips and visits between the two schools** later in the year, solidifying these new global connections.

WHAT'S NEXT?

- **Thanksgiving**
- **Myths and Legends**
- **Week of French Schools around the world**
- **Christmas**
